Generative AI for Educators

The certificate holder is proficient in leveraging gen AI to reinvent their teaching practices in the education domain. The certificate holder has explained how gen AI models, tools, and techniques have helped them to create tailored educational content and improved classroom strategies. They have demonstrated their efficiency in writing effective prompts to generate desired outcomes. Specifically, they have used generative AI tools, including IBM watsonx, ChatGPT, Synthesia, and Khanmigo, to create various learning materials and to streamline administrative tasks. The certificate holders demonstrated their skills in using gen AI in education by completing the labs and projects in this specialization.

The online specialization named in this certificate may draw on material from courses taught on-campus, but the included courses are not equivalent to on-campus courses. Participation in this online specialization does not constitute enrollment at this university. This certificate does not confer a University grade, course credit or degree, and it does not verify the identity of the learner.
